As one of the UK's leading civil engineering companies, Jones Bros are experts in the field of providing plant training services and machinery. Our practical on-site experience allows our training centre to tailor the courses we offer to make them directly relevant to your personnel's daily work.

Jones Bros provides full construction and plant training accredited by the Construction Plant Competence Scheme (CPCS).

We can provide CPCS certified training on all types of plant machinery (all categories) including: excavators, dumper trucks, 360° excavators, mini diggers, fork lift trucks and many others. A list of various plant machine training is shown below. We can also tailor courses to your company's needs.

Jones Bros has a CPCS accredited, purpose-designed, testing suite at its training centre in Ruthin, as well as a 100-acre quarry on the Horseshoe Pass, Llangollen.

**We train on a variety of equipment including:**

- 180° excavators
- 360° excavators
- Rubber-tyre excavators
- Craning with excavators
- 180° & 360° mini diggers up to 10 tonnes
- Articulated dump trucks
- Forward tipping dumpers
- Track dumpers
- Tractor loader with backhoe
- Crushers and screeners – up to 70 tonnes
- Bulldozers
- Fork lift trucks
- 4 x 4

(Full list available on request)

**Help to pay for training:**

It may be possible to obtain a training grant for your course. We can advise you of any financial assistance currently available.
